Projections Exercises #1

1/1 point (graded)

Suppose you want to make an MA plot of the first two samples `y = geneExpression[,1:2]`. Which of the following projections of y gives us new coordinates such that column 2 versus column 1 is an MA plot?

○ $y \begin{pmatrix} 1/\sqrt{2} & 1/\sqrt{2} \\ 1/\sqrt{2} & -1/\sqrt{2} \end{pmatrix}$

⦿ $y \begin{pmatrix} 1 & 1 \\ 1 & -1 \end{pmatrix}$

○ $\begin{pmatrix} 1 & 1 \\ 1 & -1 \end{pmatrix} y$

○ $\begin{pmatrix} 1 & 1 \\ 1 & -1 \end{pmatrix} y'$

Projections Exercise #2

Say Y is $M \times N$, in the SVD $Y = U D V^{\top}$ which of the following is **NOT** correct?

○ $DV^{\top}$ are the new coordinates for the projection $U^{\top}Y$

○ UD are the new coordinates for the projection YV

◉ D are the coordinates of the projection $U^{\top}Y$

○ $U^{\top}Y$ is a projection from an M-dimensional to N-dimensional subspace.
